THE PROBLEM

# *Meet Cath and Sara.*

[ An enthusiastic Web Developer ]

[ A Data Scientist ]

## THE PROBLEM

[ **Cath** has been having the time  
of her life at Junction 2018... ]

[ While **Sara** has been  
feeling rather down lately. ]

## THE PROBLEM

[ And what makes it even worse for *Sara* is that everyone else around her – even on Social Media – seem to be having a great time. ]

## THE PROBLEM

40 %

of 16 to 24-year-olds report being *lonely*\*

300  
million

people are *depressed*\*\*

[ And there are millions of people around the world  
feeling lonely or depressed, just like *Sara.* ]

*What if there was  
a  
Solution?*

SOLUTION

*Cira*

A caring AI-powered Social Cognitive  
System.

## VALUE PROPOSITION

*Cira* revolutionizes the way we think about the online environment, making it a more caring and empathetic platform to interact in.

*Cira* recognizes the mental states of the users by their social media/online activity.

It then uses this data as an input for our  
*machine learning model.*

## HOW IT WORKS?

Based on this, it can make *suggestions* in regards to the users' behaviour, location and interests.

## COMPETITIVE ADVANTAGES

1<sup>st</sup> to Market
